# CONE TOPPER RETRACTABLE BARRIER

Introducing the cone topper retractable barrier, your top choice for outdoor access control. Our high-quality cone-top barriers provide a cost-effective and reliable alternative to traditional cones, offering superior protection and security. This lightweight, portable retractable belt unit is crafted for convenience and easily attaches to most traffic cones, making it perfect for both temporary and permanent installations.

Engineered to be completely waterproof, this diverse tape is suitable for both indoor and outdoor environments, regardless of the weather, as well as its compact size, makes it easy to store and use, saving time and effort.

Available in a bright red and white pattern making it hard to miss, it comes with a 9 metre belt and can form continuous barriers between cones, perfect schools, construction sites, roadside maintenance, or anywhere a temporary barrier is required.
